

Adso

Adso is the result of a research on the possibility of reintroducing Gothic writings in our contemporary world. Inspired by Textura, Adso has been freed of all details making Blackletter faces appear foreign, or even repulsive to the contemporary reader's eyes. Nevertheless the basic features of Gothic color were preserved: verticality, modularity, darkness. Adso is a gothic of today, highly readable, open to all fields of expression.

So she was considering in her own mind (as well as she could, for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be worth the trouble of getting up and picking the daisies, when suddenly a White Rabbit with pink eyes ran
